How to fix: Fix or redirect these pages.

- <https://tarnside-roofing.example/flat-roofs/> → 404

Costs visibility or clicks

Pages without a description for search results — 2

How to fix: Write a 120–155 character description that invites the click.

- <https://tarnside-roofing.example/roof-repairs/>
- <https://tarnside-roofing.example/about/>

Costs visibility or clicks Links inside the site that lead to an error page — 1

How to fix: Point the links to the right pages or redirect the old addresses (301).

- <https://tarnside-roofing.example/reviews/> → 404 · «Reviews» on <https://tarnside-roofing.example/>

Costs visibility or clicks Pages sharing the same title — 1

How to fix: Give every page its own title.

- «Home» × 2

Costs visibility or clicks Pages without a main heading (H1) — 1

How to fix: Add one H1 that says what the page is about.

- <https://tarnside-roofing.example/contact/>

Worth tidying up Images without a text description (alt) — 3

How to fix: Describe each meaningful image in a few words.

- 1 — <https://tarnside-roofing.example/>
- 1 — <https://tarnside-roofing.example/roof-repairs/>
- 1 — <https://tarnside-roofing.example/about/>

Worth tidying up Titles too short to say what the page is (under 20 characters) — 2

How to fix: Add the service and the town.

- «Home» — <https://tarnside-roofing.example/>
- «Home» — <https://tarnside-roofing.example/roof-repairs/>

Worth tidying up Pages without a canonical address — 2

How to fix: Add a canonical link to the page's own address.

- <https://tarnside-roofing.example/roof-repairs/>
- <https://tarnside-roofing.example/about/>

Worth tidying up Pages reached through several redirects — 1

How to fix: Link straight to the final address.

- <https://tarnside-roofing.example/gallery.html> (2)

Worth tidying up

Titles too long for the search results (over 60 characters) — 1

How to fix: Shorten to about 50–60 characters.

- 91: Chimney repointing, flashing and removal in Leeds and West Yorkshire |

Worth tidying up

Pages with several main headings (H1) — 1

How to fix: Keep one H1; turn the rest into H2.

- <https://tarnside-roofing.example/about/> (2)

Worth tidying up

No business details for search engines (structured data) — 1

How to fix: Add business details (name, phone, address, hours) as JSON-LD.

- <https://tarnside-roofing.example/>

How this was checked

Every address below was requested the way a phone browser does, on 2026-09-26: the four versions of the domain, robots.txt, the sitemap and 8 pages. Weight is what a browser without cache downloads for the home page; the download time is the minimum on a slow 4G connection (1.6 Mbit/s).
